We understand that every detail matters when choosing the perfect pieces for your market. That’s why we have built a global chain of showrooms, to help bridge the gap between digital presentations and real-world experience of touch and feel.

GLOBAL FACTORIES

We continuously optimize our global industrial chain through wholly owned factories in China, Bangladesh, and Cambodia, backed by long-term strategic partnerships with reputable local suppliers. This hybrid model—combining owned factories with trusted external partners—enables us to flexibly scale capacity, efficiently handle complex orders, and ensure business continuity in changing markets. As a result, we provide reliable, resilient supply assurance for diverse production needs, driving competitiveness and long-term sustainability for our clients.

Langlang Fashion (Cambodia) Co. Ltd.

- Production Capacity Pcs/Month : 5,00,000
- Total Worker : 550

BETTEX

DIGITAL FASHION SOLUTION

AI+3D —— Redefining Fashion Workflow

"AI-Driven 3D Technology That Transforms Creative Concepts into Visual Reality"

We are revolutionizing the fashion design workflow with AI. From instant precision adjustments of styles and patterns to generating dynamic digital try-ons and multi-scenario runway simulations, we turn your creative concepts into visual reality immediately.

Powered by 'Tryex', our proprietary AI platform, we seamlessly integrate cutting-edge industry algorithms with advanced 3D technology. This synergy disrupts traditional sampling models, drastically shortening development cycles and delivering an efficient, immersive visual experience.
